

Tribal IQ™

Your Company's AI Skills Vault.

What Happens On the Second Shift

When the One Person Who Knows The Answer Isn't There?

Tribal IQ™ gives your employees immediate, hands-free access to the approved operational knowledge where they want, when they need it.

WHAT TRIBAL IQ™ HELPS OPERATIONS LEADERS ACHIEVE

Faster Troubleshooting and Decisions

Identify causes, required checks, supporting procedures and escalation paths without waiting for the right expert.

Improve Consistency Across Shifts

Give every shift and department the same approved operational guidelines.

Reduce Searching and Waiting

Reduce time spent searching manuals, folders, shared drives, emails and outdated documents.

Protect Critical Operating Knowledge

Capture the undocumented expertise of experienced employees before it is lost.

Build Capability Without Slowing Production

Help newer employees learn the flow of work and reduce interruptions to supervisors and experts.

HOW IT WORKS

1 Ask

Use voice or text to ask questions naturally.

2 Get Answer

Receive trusted answers grounded in your approved knowledge.

3 See References

Retrieve the procedures, checklists or video that supports the answer.

4 Retain & Grow

Keep updating your agent as processes or information changes.

THE URGENCY

Your operation may be one retirement, one resignation, or an unexpected absence away from losing knowledge that took decades to build.

The question is not whether experienced people will leave. The question is whether their knowledge will remain behind.
